

BOLLE X1000 DUO *Tactical Goggles*

REV071422

The X1000 double lens ballistic goggles are ideal for reinforced total protection. With its double lens, X1000 provides ballistic resistance to over 275 m/s, more than 990 km/h, and ultra-effective anti-fog resistance thanks to its Equalizer technology.

Equalizer technology ensures ultra-effective anti-fogging. It uses a vent system to equalize the atmospheric pressure between the screens, thus eliminating any moisture and condensation.

Specifications:

- Durable ballistic lens
- Panoramic field of vision
- Comfort foam lined frame
- Ventilation with foam filtration
- TPV ventilated frame
- Wide Adjustable 35 mm non slip strap
