

# MERET TFAK™ PRO X BAG

REV081221

## **Compact and hands free kit with a lot of capacity and customizable configuration...**

The MERET TFAK™ PRO X first aid bag is designed to help you easily carry and deploy medical supplies in a very compact, hands free kit, with optimized capacity. The customizable configuration makes it convenient for each user to organize the contents according to their specific items and requirements.

Designed by first responders, the exterior elastic loops have been designed to provide easy access to two tourniquets and other bleeding control supplies quickly – without having to dig through a large gear bag. This pack provides easy access to gloves and other supplies without opening the main compartment, through a convenient port on the front of the bag. The main compartment features elastic loops for organizing contents and keeping them easily accessible.

The TFAK™ PRO X™ is constructed from wipe-clean infection control materials (internally and externally) making it easy to maintain and ideal for professional responders and other medical personnel.

### **Features:**

- Double stitched seams on all stress points
- Exterior hook and loop section for name tape or patches
- Pocket to secure shears
- Internal glove pouch with exterior access
- External elastic sleeves secures additional supplies

### **Specifications:**
