

# NAR® SIMULATION SMART BATTERY CHARGER

REV062023

## **Prevents Overcharging**

The NAR® Simulation NiMH Smart charger offers two charging settings that allow operator a choice of a rapid charge vs. a trickle charge. The Charger features an LED charge indicator light that changes from red to green when the charge is complete.

Battery charging is accomplished from any current battery charge level (i.e., fully depleted to just topping off). Smart charger prevents battery overcharging and can be used with any NAR NiMH battery pack (5-amp, 10, amp, K-9 assembly).connectors for different elements of the onboard bleeding system.
