

WARHORSE SERIES *Pegasus Ropes®*

REV063023

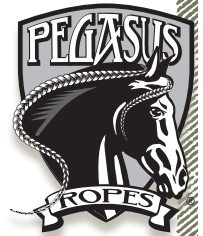

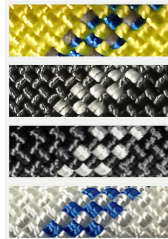

High-Quality, Multi-Purpose Rope...

Warhorse is a high quality, multipurpose rope featuring a 100% Innegra™ fiber braided core with a high twist polyester sheath, allowing superior performance. Warhorse is a static rope designed to provide reliability, high performance, great handling, excellent knot-ability with high strength, low weight, low elongation, whether wet, dry or any other climatic condition.

PEGASUS™ cores are all designed with Innegra™ S, a new and innovative advanced fiber that gives Pegasus ropes the same physical & mechanical properties – whether wet, dry or even exposed to chemicals. This breakthrough technology has an impressive strength-to-weight ratio, making it the lightest structural fiber available today. Innegra's unique composition also provides great thermal properties when used in hot or cold environments. For the first time you can be confident that the backbone of your rope's system, your core, will perform regardless of environmental challenges.

Colors Available:

- 9.5mm Yellow with Blue Runner and Reflective Tape (Item# 90-0205)
- 9.5mm Black with Gray Runner and Reflective Tape (Item# 90-0206)
- 9.1mm Black with Gray Runner (Item # 90-0207)
- 9.5mm White With Blue Runner (Item# 90-0208)

Warhorse Series™ Pegasus Ropes®

ITEM #	COLOR	RUNNER	ITEM #	NSN #
9.5 mm	YEL	BLU/RFL	90-0205	
9.5 mm	BLK	GRY/ RFL	90-0206	
9.1 mm	BLK	GRY	90-0207	
9.5 mm	WHT	BLU	90-0208	

Also available in 100ft., 200 ft., and 300ft lengths.

Features:

- High quality, multipurpose rope featuring a 100% Innegra™ fiber braided core with a high twist polyester sheath for superior performance
- Excellent knot-ability with high strength-to-weight ratio & low stretch/sheath slippage – wet, dry or in any other climatic condition
- Ultra-lightweight, strong Innegra™ core for reliable strength, durability & flotation
- Physical & mechanical properties remain unchanged even when wet, dry or contaminated with chemicals
- Soft to the touch, easily stored and deployed from stuffed sack
- Low dielectric & UV stable

Warhorse 9.5mm Rope Specifications:

- Diameter: 9.5mm
- Weight: 3.34 lb per 100 ft
- Tensile Strength: 5,100 lbf (22.7 kN)
- Fibers (core/sheath): Innegra™/Polyester
- Sheath Ratio: 28% Polyester
- Ratings: NFPA 1983/2012 Throwline (Pending)

Warhorse 9.1mm Rope Specifications:

- Diameter: 9.1mm
- Weight: 4.88 lb per 100 ft
- Elongation: 1.7%
- Tensile Strength: 5,670 lbf (25.2 kN)
- Fibers (core/sheath): Innegra™/Polyester
- Sheath Ratio: 63% Polyester
- Ratings: NFPA 1983/2012 Throwline (Pending)
