

TCCC/TECC Modular Training System | Stations/IFAK Combo

REV083123

Essential equipment to train up to 10 Students...

Skill Stations Portion: Provides the necessary equipment to perform PHTLS TCCC Certification required tasks when training at individual skill stations. Includes all the necessary equipment to instruct up to ten (10) students in the treatment of the leading causes of potentially preventable death in the tactical environment. Contents are packaged in a self-contained, wheeled, rigid case with internal dividers to keep the equipment organized and easy to inventory. Addresses extremity hemorrhage, wound packing, chest seal application, needle chest decompression, junctional hemorrhage, basic airway adjuncts, surgical airway, splinting, hypothermia prevention & management, IV skills and eye injuries.

IFAK Portion: Provides ten training IFAKs for student use during trauma lanes or scenarios. Each IFAK contains the necessary equipment for initial TCCC/TECC care in an easy to attach modular carrying bag that can be worn as a drop-down leg rig attached to a belt with a quick-detach buckle system. The IFAK also has a removable belt and leg strap so it can be MOLLE attached to a vest as another carrying option. The kit contains 10 pre-packed TCCC Training IFAKs.

Features:

- Contains 10 pre-packed TCCC Training IFAKs for use by students during trauma lanes or training scenarios
- Provides the necessary equipment to train up to ten (10) students at individual skill stations in the treatment of the leading causes of potentially preventable death in the tactical environment
- Packaged in a self-contained, wheeled, rigid case with internal dividers to keep the equipment organized and easy to inventory

Dimensions:

- Hard Storage Case:
External – L 30.75 in. x W 20.5 in. x D 11.6 in.
Internal – L 28.5 in. x W 17.5 in. x D 10.5 in.
- Weight: 60 lb
