

SS 401 ADVANCED COMBAT HELMET

FULL CUT

REV111523

Level IIIA Protection

The SS 401 Advanced Combat Helmet is constructed of aramid materials with a thermoset resin shell. The SS 401 has been tested and verified to meet or exceed ballistic resistance as specified under NIJ Standard 0106.01 by an NIJ accredited laboratory.

The D30 TRUST 7 pad system offers extreme comfort and high performing protection. The pad system features a unique geometry that allows the pad to fit the shape of the head and offers superior deceleration under blunt impact tests vs. market-leading competitors. The pads are fully customizable with hook and loop attachment. The dial ratchet harness provides a custom fit and is easily adjusted with one hand.
