

R.A.C.E. SUB-T KIT *Rapid Access Casualty Extraction Subterranean Kit*

REV013124

The R.A.C.E. System: Sub-T is specifically designed for full-spectrum vertical operations within harsh environments.

The R.A.C.E. System carrier is a multi-configurable bag to adapt to your environment, PPE, and kit layout. It can be worn as a backpack, messenger bag, carried, or attached with a carabiner. The main compartment is designed as a "stuff-sack" for rapid deployment and packing of rope, while there is compartments for your hardware, harness, helmet, and gloves. Compression straps allow for reduction of footprint depending on mission configuration.

Features:

- Ultra-Lightweight Components
- Hydrophobic Software
- Scalable based on mission context, organic assets, & end-user
- Innate requisite variety (redundancy)
- Easy sustainment
- HRO (High Reliability Organizing) Engineered
- Resilient to environmental pathology
- Capability focused - up to Technician Level JPR's (Job Performance Requirements)
- Meets and exceeds operational requirements of SOF CASEVAC Program

Specifications:

H 15 in. x W 10 in. x D 7.5 in.

Weight: 10.5 lbs
