

EPIC™ RESPONDER PLUS HELMET

FULL CUT

REV021524

Level IIIA Protection

The Team Wendy® The EPIC™ Responder Plus ballistic helmet features exceptional performance and is substantially lighter than a standard ACH helmet. It offers maximum adjustability and comes configured with the EPIC™ Air liner system, Cam Fit retention and front cover plate. The shell is constructed of Ultra High Molecular Weight Polyethylene material (UHMWPE) and features a no thru-hole construction. The EPIC™ Air system has 3 impact liners (front, crown and rear) along with 5 thin comfort pads with antimicrobial wicking fabric and is constructed with proprietary Zorbium foam. The Cam Fit retention system features no thru-hole design and BOA fit system with micro-adjustment dial, coated stainless steel cable and low friction guides.

Specifications:

- Tested to NIJ IIIA (according to NIJ STD 0106.-01/0108.01)
- 9mm BFD < 25.4mm
- 17gr V50 equal to/greater than 2560 f/s (780 m/s)
- Meets ACH Gen II Blunt Impact (AR/AP 1401) and AEP 2902 clause 4.1.1.1 Method H
- Offers maximum adjustability and comes configured with the EPIC™ Air liner system, Cam Fit retention and front cover plate
- Shell is constructed from Ultra High Molecular Weight Polyethylene (UHMWPE) and features no thru-hole construction for retention system
- Team Wendy's EPIC™ Responder line of ballistic helmets features lightweight high-performance material paired with the Team Wendy liner systems for premium comfort.
