

BLOODBORNE PATHOGEN PPE KIT

REV030524

Personal Protection Equipment from Bodily Fluids

Be prepared and protected when rendering aid wherever you are. Biological hazards like bodily fluids may sometimes require more protection than gloves that are typically found in first aid and bleeding control kits. NAR's Bloodborne Pathogen Personal Protection Equipment (PPE) Kit is a great addition to any kit for extra protection to have available when needed.

***For workplace requirements OSHA's Bloodborne Pathogens standard can be found in Title 29 of the Code of Federal Regulations at 29 CFR 1910.1030. Part of this standard requires employers to provide personal protective equipment (PPE), such as gloves, gowns, eye protection, and masks. All of which can be found in NAR's Bloodborne Pathogen Kit.*

Features:

- Personal Protection Equipment in an ultra-portable, re-sealable pouch
- Complies with Title 29 of the Code of Federal Regulations at 29 CFR 1910.1030.

Specifications:

- L 5 in. x W 5.5 in. x D 1.5 in.
- Weight: 0.35 oz

Contents:

Bloodborne Pathogen PPE Kit
