

LOGGING FIRST AID & TRAUMA KIT (SOFT CASE)

REV062424

“By many measures, logging is the most dangerous occupation in the United States.”

“Logging operations are often remote from any emergency medical care. Properly administered first aid can be a major factor in minimizing even life-threatening injuries.” - OSHA.org

The Logging First Aid & Trauma Kit from North American Rescue is designed as a portable First Aid Kit for the workplace that exceeds OSHA Standard Number: 1910.266 App A - First-aid Kits (Mandatory) for the logging industry. Packaged in a convenient zippered nylon bag that is easily transported to the patient's side, this kit offers the ability to treat logging environment injuries with the added benefit of being able to control major bleeding from traumatic injuries with the C-A-T® Tourniquet, the fastest, safest, most effective pre-hospital field tourniquet on the market today.

Features:

- Compact size allows for storage in vehicles and machinery
- Rugged nylon constructed bag keeps contents secure
- Durable 550 cord pulls
- Able to treat the most common job site injuries with the added benefit of being able to control major bleeding with the fastest, safest, most effective prehospital field tourniquet on the market
- Designed with mobility in mind, the kit can be easily carried to the patient's side

Specifications:

- Packaged: L 14.75 in. x H 8 in. x D 4 in.
- Weight: 3.03 lbs
