Compact and Versatile for different mission profiles

The Mini Medic Bag is a compact trauma aid bag designed to provide various capabilities for different mission profiles. External pouches and side/bottom MOLLE allow for external tourniquet or other attachment options. Large pouch on back panel includes a drop-down pouch with abrasive resistant padded bottom allows storage of compact breaching tools (not included). External expansion zipper allows for increased load capacity if needed.

The inside of the bag has two small and one large, clear tear-away pouches for medical or other equipment supply storage. Along with two mesh inner pouches and an internal pouch on the inner lid, many storage options exist.

Features Drop-down Pouch for Compact Breaching Equipment or Hydration Packs (Not Included)
