Save lives! Stop life-threatening bleeding in the first critical minutes

The first minutes following a traumatic injury are crucial in saving a life. Uncontrolled bleeding can result in death within minutes—even before emergency medical services or other emergency responders can arrive. The North American Rescue® (NAR®) Public Access Bleeding Control (PABC) Twin Pack is designed to provide bystanders and initial first responders with quick and easy access to essential medical equipment for stopping life-threatening bleeding. The Twin Pack includes the contents of two Individual PABC Kits contained inside one easy-to-open nylon carrying case that is designed to fit next to an AED in the cabinet.

NAR® PABC Twin Packs are available in Basic, Intermediate, Advanced BCD, and Advanced CELOX™ configurations.

FEATURES/SPECIFICATIONS
