

SCHOOL CRISIS INCIDENT PREPAREDNESS FIRST AID KITS

In response to heartbreaking acts of violence against students, faculty and other innocents across our nation, our communities struggle to find ways to prevent and improve our response to these senseless tragedies. Whether man-made or natural disasters, it is difficult to prevent or predict when or where these crises will occur, or when the need for life-saving medical equipment will arise.

Crisis Response Preparedness provides the best means to help save lives.

North American Rescue® has designed crisis preparedness kits with the essential emergency first aid equipment required to allow our School Resource Officers and others to begin life saving treatment as soon as possible – even before emergency medical personnel arrives.
